

The image consists of a grid of black squares. There are approximately 10 rows of squares. The first row has about 20 squares. The second row has about 12 squares. The third row has about 10 squares. The fourth row has about 12 squares. The fifth row has about 10 squares. The sixth row has about 12 squares. The seventh row has about 10 squares. The eighth row has about 12 squares. The ninth row has about 10 squares. The tenth row has about 12 squares. The squares are arranged in a staggered pattern, with some squares missing from certain rows.

QUESTION:
A sequence of 20 black squares is shown above. If the sequence continues in the same pattern, what will be the color of the 25th square?

A horizontal bar consisting of 24 dark gray squares. The first 13 squares are grouped together by a vertical line on the left, and the last 11 squares are grouped together by a vertical line on the right. To the right of the second group of squares are the numbers '3' and '4'.

[REDACTED] - [REDACTED] , [REDACTED]

A horizontal bar composed of two groups of dark gray squares. The first group contains 18 squares, and the second group contains 10 squares, separated by a single vertical line.

A horizontal row of 24 dark gray squares. A vertical white line is positioned between the 12th and 13th squares from the left.

3

A horizontal bar consisting of 24 dark gray squares followed by a single light gray square.

A horizontal sequence of 24 dark gray squares. A vertical white line is positioned between the 12th and 13th squares from the left.

A horizontal bar consisting of six solid black squares of equal size, followed by a single thin vertical black line.

A horizontal bar consisting of 24 dark gray squares of equal width, followed by a single thin vertical line on the right side.

A horizontal row of 30 dark gray squares, likely representing a grayscale image or a sequence of frames.

A horizontal sequence of 24 dark gray squares arranged in a single row. A thin vertical white line is positioned at the far left edge and another at the far right edge, creating a slight gap between the first and second squares and between the last square and the third from the right.

A horizontal bar consisting of 20 black squares of equal width, followed by a single small white square.

Digitized by srujanika@gmail.com

A horizontal bar consisting of 24 equal-sized, dark gray rectangular blocks arranged side-by-side.

A horizontal bar consisting of 24 small, dark gray squares arranged side-by-side. The 13th square from the left is a lighter shade of gray, creating a visual cue or indicator.

A horizontal bar consisting of ten dark gray squares of equal width, followed by a single vertical line.

A horizontal row of 24 dark gray squares, followed by a short vertical line, and then another horizontal row of 24 dark gray squares.

A horizontal row of 24 dark gray rectangular blocks, evenly spaced, representing a sequence or a set of items.

A horizontal bar consisting of nine dark gray squares followed by a single white square.

| |

A horizontal row of eight black rectangular blocks, likely representing a sequence of data or a specific pattern.

The image consists of six horizontal rows of black squares. Each row contains approximately 40-45 squares. The first five rows are fully visible, while the last row is partially cut off at the bottom. The squares are arranged in a regular grid pattern, suggesting a binary or digital data representation.

If you have questions or concerns, contact your healthcare provider. A member of your care team will answer Monday through Friday from 9 a.m. to 5 p.m. Outside those hours, you can leave a message or talk with another MSK provider. There is always a doctor or nurse on call. If you're not sure how to reach your healthcare provider, call 212-639-2000.
