The image consists of 12 horizontal rows of dark gray squares. Each row contains approximately 20-25 squares. The arrangement of squares varies across the rows, suggesting a pattern or sequence. Some rows have a single vertical line of squares, while others have multiple segments. A few rows contain a small gap or a break in the sequence of squares.

A horizontal sequence of 24 dark gray squares arranged in two rows of 12. The squares are evenly spaced and extend across the width of the frame.

'   12    18

A horizontal bar consisting of 24 small, dark gray squares arranged in a single row. A vertical white line is positioned in the center, dividing the bar into two equal halves of 12 squares each.

A horizontal sequence of 24 dark gray squares, divided into four groups by vertical lines. The first group contains 5 squares, the second group contains 6 squares, the third group contains 7 squares, and the fourth group contains 6 squares.

A horizontal row consisting of 20 identical dark gray squares arranged side-by-side.

**Figure 1.** A schematic diagram of the experimental setup. The light source (laser) emits a beam of light that passes through a lens and a beam splitter. The beam splitter splits the light into two paths: one path goes through a polarizer and a lens, and the other path goes through a lens and a polarizer. The two paths converge at a point where they are imaged by a camera.

**ANSWER** The answer is 1000. The first 999 digits of the decimal expansion of  $\pi$  are all 9's.

\_\_\_\_\_ , \_\_\_\_\_

A horizontal bar composed of 21 squares. The first 20 squares are dark gray, and the last square is light gray.

A horizontal row of 20 dark gray squares, likely representing a sequence of data points or a visual representation of a signal.

The image consists of ten horizontal rows of black squares arranged in a grid. A vertical line segment is positioned in the center of each row. In the first row, there is one vertical line. In the second row, there are two vertical lines. This pattern continues, with the number of vertical lines increasing by one in each subsequent row. The vertical lines are located in the center of each row, with the second line in each row shifted to the right relative to the first line.

The image consists of ten horizontal rows of black squares. Each row contains 10 squares. The sequence of rows is as follows: Row 1: 10 squares. Row 2: 10 squares. Row 3: 10 squares. Row 4: 10 squares. Row 5: 10 squares. Row 6: 10 squares. Row 7: 10 squares. Row 8: 10 squares. Row 9: 10 squares. Row 10: 10 squares. There are two breaks in the sequence: one between Row 4 and Row 5, and another between Row 8 and Row 9. Each break is composed of 10 squares.

If you have questions or concerns, contact your healthcare provider. A member of your care team will answer Monday through Friday from 9 a.m. to 5 p.m. Outside those hours, you can leave a message or talk with another MSK provider. There is always a doctor or nurse on call. If you're not sure how to reach your healthcare provider, call 212-639-2000.
